## TECHNICAL SKILLS

---

**Languages:** JavaScript, TypeScript, Python, Java, C/C++

**Frameworks:** Node.js, Express.js, React.js, Next.js, Vue.js, Tailwind

**Database:** SQL (MySQL, Postgres), NoSQL (MongoDB)

**Developer Tools:** Git, GitHub, Figma, Postman, Jira

**DevOps:** Google Cloud Platform (GCP), Terraform, CI/CD, ArgoCD

## EXPERIENCE

---

### Software Development Engineer

July 2023 – Present

*Wohlig Transformation*

*Mumbai, India*

- Currently contributing to the infrastructure migration of a popular streaming platform from multi-cloud to GCP using Terraform. This will reduce the cloud cost from \$150,000 to \$75,000 annually.
- As part of the development team, played a key role in migrating from Angular.js 1.8 to Vue.js 3, developing modules like dashboards, hospital locator, profile, etc.
- Resolved compatibility issues and implemented necessary syntactical changes during the Node.js 10 to Node.js 18 migration, enhancing efficiency and security.
- Transitioned data visualization from FusionCharts to Chart.js, boosting performance by 20%, enhancing aesthetics, and saving the company \$3,399 annually.
- Developed a backend file upload microservice to optimize the file upload process for a corporate insurance project, achieving efficient and robust file handling.

### Software Development Engineer Intern

Jan. 2022 – June 2022

*Wohlig Transformation*

*Mumbai, India*

- Acquired proficiency in Vue.js, Express.js, Node.js, AWS S3, and other technologies through hands-on learning experiences.
- Enhanced SaaS application's subscription management with ChargeBee integration, including API updates, RESTful API development, and creation of user-friendly web pages.
- Implemented a certificate generation system with RESTful APIs and user interfaces, delivering instant gemstone certificates.

## PROJECTS

---

### Job Portal | [Link](#) | Node.js, Express.js, MongoDB, React.js

- Developed a MERN Stack-based web app to streamline the flow of job application processes.
- Collaborated with a team member to build the Job Portal project.

### Seller Logistics Web Application | [Link](#) | Node.js, Express.js, MongoDB, React.js, MUI

- Designed and developed a web application for tracking shipment deliveries in real-time on a map.
- Used the Mapbox GL API to render interactive maps and established communication between the server and delivery agents using MQTT protocol.

## EDUCATION

---

### Sardar Patel Institute of Technology

Mumbai, India

*Bachelor of Technology in Information Technology*

*Aug. 2019 – May 2023*

- CGPI: 8.43 out of 10
- Related Coursework: Data Structures and Algorithms, Operating System, Database Management System, Object-Oriented Programming

## ACHIEVEMENTS

---

- Earned Google Cloud (GCP) [Professional Cloud Developer](#) Certification.
- Solved over 400 problems on LeetCode and ranked #1027 out of 21,234 participants in the weekly contest.
